

318. Great Debates in Cardiovascular Imaging of Pericarditis and Myocarditis

Sunday, March 29, 2026 at 4:00 PM CST 1h 352

Description: After a real-world case presentation to set the stage, cardiovascular imaging experts will square off in two debates. The first considers whether a biopsy is required beyond imaging in patients with myocarditis and the second considers whether a cardiac MRI is required before starting empiric treatment in patients with pericarditis.
